

Animated Whiteboard

USB Animated Whiteboard turns the wall into your computer's touchscreen immediately and make presentations easier and fun! Simply plug this onto your laptop and projector.

USB Animated Whiteboard connects to your computer through USB and captures the IR pen movement on the projected image through its IR sensor. It enables you to draw, circle, or highlight on your presentation using an IR-enabled pen. Finally you can move around freely without being chained to your computer and impress your audience with your presentation!

It's very easy to set up and use. Simply connect the receiver to your computer, then turn on your projector. The driver software for the receiver can be installed in just a few seconds. Open the installed software and then follow the instructions shown on the screen to calibrate. The installation and calibration can be done within two minutes. Once you are finished, the projected image on the wall will turn into your computer's touchscreen! You can use the pen to open programs or files, draw, and perform various tasks just like you do with your mouse!

High Speed Scanner

BUSINESS SERIES

Portable Document Scanner And Visual Presenter

5500A3B

A3 large format with much smaller footprint

PRODUCT DESCRIPTION

- Capture high-quality image at 5.0 mega pixels
- Metal structure provides durable construction and modern appearance.
- 270° rotating structure available to capture a much wider

PRODUCT DESCRIPTION

- Capture high-quality image at 5.0 mega pixels
- Metal structure provides durable construction and modern appearance.
- 270° rotating structure available to capture a much wider view.
- OCR more than 180 languages, recognition rate up to 98%, directly save as Word or Excel files.

TRUCK A3 Win7 Win8 XP Vista

Product Features

1. Real scanning, automatic focus

Adopt high quality image HD CMOS, auto auto-focus function, imaging up to professional standard.

2. Real projection, vivid feeling

Connect with projector, match with the present platform, project the real object into the big screen, makes the meetings, courses.

3. Green environment, low carbon energy saving.

Adopt USB connect with computer, no need extra power supply and can high-quality image scan documents.

4. Professional manuscripts set, Fixed and flexible shooting

The adjustable mark of the size of B3/A3 paper and other standard documents (not need) put them to the right side when you scan. Calls convenience and time saving.

Product function

1. Speedy scan, one-click finished

click the scan button with the mouse, one-click to finish scan, just need one second.

2. Omnipotence scanner

Scan documents, data bills, certificates, books, real objects etc.

3. Timing shooting, fast copying

setting the shooting interval time, automatic shoot by setting the software, fast scanning books and lots of documents.

4. Record and playback media

demonstration videos, apply to lab-operation steps, Product training and demonstration.

5. Image edit processing

The software owns strong image edit functions: image cutting, rotate, character adding, adjust saturation, Contrast Ratio and binarization.

6. The remarkable recognition technology

Leading OCR technology, Recognition characters, tables, symbols, supported many different country languages, up to 98%, after OCR, directly save as word files.

7. PDF conversion

Images convert to pdf file under one-click, they can be checked on different equipments.

8. Print, fax, email, Office integration

scan & print connect with printer, send web fax and emails, achieve office all-in-one.

Item specifics

Brand Name:	cdteag
Model Number:	SMB5A38
Max Scan size:	A3&4 Paper Size
Portable and compact:	One second scan
OCR (optical character recognition):	10 languages OCR function
Dpi(Dots per inch):	600
Resolution:	2500x1544
Picture format:	JPG, TIF, PDF, BMP, TGA, PCL, PNG, RAW
Document format:	PDF, WORD, TXT
Video format:	AVI, VMS
System integration:	Make PDF
ODM service:	support SDK,API and Touch driver

Packaging Details

Unit Type: piece

Package Weight: 0.250kg (0.55lb.)

Package Size: 15cm x 9cm x 6cm (5.91in x 3.54in x 2.36in)

Type: Mini PC Stick

Products Status: Stock

Graphics Card Type: Integrated Card

Hard Drive Capacity: ≤ 40GB

Brand Name: FASTDISK

Processor Main Frequency: 1.33GHz

Use: Multimedia

Memory Capacity: 2GB

Processor Brand: Intel

Type: PC Stick

Model Number: pocket pc

Processor Model: Z3735F

Touch Screen border

A border has been designed and assembled to fit, for example, 32" ordinary TV. (Price depends on the size of the screen.) A modern day TV, usually have an HDMI connector that connects to a laptop's HDMI port, run a customized software, and whatever display from your computer outputs onto a TV screen. The big difference, the TV screen becomes a touch enabled as if you used a mouse and a keyboard to interact.

The price of this border is only for 32" TV screen. Bigger display means bigger sized border.
